

Table of Contents

ACRONYMS AND ABBREVIATIONS.....	5
INTRODUCTION	7
History of Biomass-Fueled Generation	8
The Current Market for Biomass.....	8
The Future of Biomass-Fueled Generation	11
KEY BUSINESS DRIVERS.....	14
Climate Change	14
National Security.....	15
Price of Fossil Fuels	16
Renewable Portfolio Standards	18
Environmental Consciousness of Consumers	19
Government Support	20
Forest Management.....	24
Environmental Benefit.....	24
BARRIERS TO SUCCESS	26
BIOMASS FEEDSTOCKS	28
Forest Resources	28
Agricultural Resources.....	30
Source: DOE.....	32
Industry Processing Residues	34
Urban Wood Residue	34
Landfill Gas.....	35
Biomass Supply Process	35
Torrefaction.....	37
BIOMASS-FUELED GENERATION TECHNOLOGY.....	39
Direct-firing	39
Co-firing	40
Creation of Biogas and Biofuel	41
ECONOMICS OF BIOMASS-FUELED GENERATION.....	44
Co-firing Costs	45
Feedstock Costs	46

Renewable Energy Production Credit.....	47
Green Power Sales.....	48
Carbon Reduction Mandate.....	49
APPENDIX.....	52
U.S. Landfill Gas Projects.....	52
U.S. Biomass Resource Potential on Federal Lands.....	53
Average Heat Content of Biomass Fuels.....	54
GLOSSARY	55
