Introduction 7

Objective 7

Value 7

Scope 7

Summary 9

Overview of Geothermal Energy 11

What is Geothermal Energy? 11

The History of Geothermal Energy 12

The Current Status of Geothermal Power 14

Geothermal Power Generation Technology 16

 Flash Steam..... 16

 Dry Steam..... 16

 Binary Cycle..... 16

 Flash/Binary Combined Cycle 17

 Kalina Cycle..... 17

Enhanced Geothermal Systems..... 17

Bringing Geothermal Power to Market 19

Benefits of Geothermal Power 19

Environmental Impacts of Geothermal Power..... 21

Barriers, Risks, and Challenges to Geothermal Power..... 23

Economics of Geothermal Power 27

Capital Costs 27

O&M Costs 29

Cost of Electricity..... 29

Other Economic Factors..... 30

U.S. Geothermal Resources 33

Resource Potential of Geothermal Power in the U.S. 33

Key States Involved in Geothermal Power..... 37

 Alaska 37

 California..... 38

 Hawaii 39

Idaho.....	40
New Mexico	40
Nevada	41
Oregon.....	41
Utah	42
Key U.S. Geothermal Power Project Developers	44
<i>CalEnergy</i>	44
<i>Calpine</i>	46
<i>Enel North America</i>	48
<i>Magma Energy</i>	50
<i>Nevada Geothermal Power</i>	53
<i>Northern California Power Agency</i>	55
<i>Ormat Technologies</i>	56
<i>Raser Technologies</i>	59
<i>Sierra Geothermal Power</i>	61
<i>Terra-Gen Power</i>	63
<i>U.S. Geothermal</i>	64
<i>Vulcan Power</i>	66
